WHO WE ARE

Founded by patriots driven by integrity, not personal agenda. We shine a light on government wrongdoing.

WHO WE SERVE

Everyday Americans: Citizens seeking transparency, accountability, and reform from a government that should serve them.

Federal Employees: Insiders who've witnessed government overreach and need support to expose the truth.

Feds For Freedom is the grassroots organization that **secured a landmark injunction in January, 2022 that protected over 400,000 federal employees from being forced to get the COVID-19 vaccine or lose their job.**

MISSION & VISION

Mission: To defend Constitutional rights, protect Americans from government overreach, and give a voice to federal employees—all from the inside.

Vision: A government accountable to the people. [See the Constitution.](#)

WHAT WE DO

Fighting Overreach with E.A.S.E.

Alone, the fight is overwhelming. Together, we can **Expose, Advocate, Support,** and **Educate** to hold bad actors accountable and prevent harm.

EXPOSE

- Reveal illegal actions of unelected bureaucrats.
- Raise public awareness of these illegal actions through our podcast, Substack, and social media.
- Pass critical information to agency leaders, legislators, and- when necessary- the media.

SUPPORT

- Connect federal employees and citizens to a thriving, like-minded community, legal defense, and vital resources.
- Provide procedural guidance and connections to oversight bodies.
- Serve as an unofficial union of last resort for federal employees whose allegiance is to the Constitution.

ADVOCATE

- Mobilize grassroots efforts, push legislative reform, and raise public awareness.
- Collaborate with like-minded organizations, individuals, and legislative contacts.
- Litigate on behalf of federal employees and citizens when needed.

EDUCATE

- Empower insiders by connecting 1000s of federal whistleblowers to resources and legal support.
- Reach 10s of 1000s of Americans through podcasts and articles exposing government overreach.
- Drive reform by partnering with likeminded organizations and legislative contacts to propose accountability-focused policy and legislation.

“You have brought recognition to the suffering in silence that I endured for that time. You are worth every penny I spend on monthly dues. Keep charging ahead!”

F4F MEMBER

WHY IT MATTERS

Are you tired of government overreach?

Federal employees cannot fight corruption alone, and citizens deserve a government that serves them. Together, we can find, fix, and finish fraud, waste, abuse, and overreach. F4F is a champion of the Constitution, defender of civil liberties, and protector of the people—all while fighting the administrative state from within.
