FEDS FOR FREEDOM

## SUMMARY OF JANUARY 2024

### A MESSAGE FROM OUR PRESIDENT

#### Fundraising Campaign

As we enter 2024, I want start with thanking each of you who have contributed to our recent fundraising efforts. Our class-action suits are a vital part of our push for accountability – our best defense against a recurrence of the mandates will come through holding individual bureaucrats accountable. If you wish to join this fight, your contribution will help with these significant ongoing expenses--You can [donate here today](#).

#### Project 2025

We are soliciting applications from those seriously interested in serving in a future, freedom-oriented presidential administration. If you want to take on higher levels of responsibility and help reform the federal workforce from the inside out, please [email me your resume](#) for consideration **no later than February 15**. Our organization is part of the advisory board for [Project 2025](#) and will soon be nominating members for consideration as political appointees. There's also the opportunity to network with others who are serious about crafting positive reform within the bureaucracy – if you sign up to support us at the [President's Circle level](#), you will have the option to join an exclusive chat group with others who are seeking to lead at the highest levels of government.

#### Feds For Freedom Board

We have some significant changes to the Board of Directors to announce. We are pleased to have Ron Severson joining the board for a 12-month term. He's been relentless in his efforts and support of our organization, and I know he will accomplish great things in the coming months. We are also saddened to announce that Megan Guerrero has tendered her resignation and will be taking time to focus on family while her husband is serving abroad. She has been with us since the very beginning and will continue to be involved as an active volunteer. We are all incredibly thankful for her efforts helping our organization get started!

#### Monthly Meetings

We are just a few days away from the launch of our new contact management platform. It will allow us to do a much better job of staying in touch with you, as our members, and tracking donations and engagement. **As soon as it goes live, we will be limiting participation in our monthly meetings to those who are paid supporters contributing at least \$17.76 or more per month**, ensuring that those putting their money where their mouths are have the opportunity to be more involved.

#### 2024 Goals

Your recurring donations enable our efforts fighting for Freedom, Accountability, Integrity, and Reform within the bureaucracy – a more FAIR system of the people, by the people, and for the people. We have a lot of ambitious projects in the works: preparing our members to serve at higher levels of government service, filing suit against forced pronoun usage and other violations of constitutional freedoms, and continuing to push for accountability in the aftermath of the mandates. Our goal for this calendar year is to grow to 2,000 supporting members at or above the Patriot Tier, and 100 at or above the President's Circle level, allowing us to continue to fight against the weaponization of unelected bureaucrats against the people they should be serving. # CLASS ACTION UPDATES

Our work continues to progress at an increasing rates, and we are grateful for the efforts of our team at Lloyd-Lemmon-Hale PLLC.

As you probably know, we have 17 class actions lawsuits, each at various stages in the legal process. Scott Lloyd has provided a brief update of each one that you can view [here](#). Official legal documents can be found on our website under [Legal Updates](#).

We consider these suits VITAL in our efforts to hold the government accountable for their actions during the Covid Era. Even today, our members are being exposed to harassment over masking, and the only way we can stop this nonsense is to fight back through the legal system.

Thank you for all of your support and for your patience with the litigation process which can be slow, and in this case is highly complex. Because of your hard work, dedication, and sacrifice, however, we have compiled and are now litigating suits that have the best chance of bringing recourse and accountability to a situation where it has sorely been lacking. Things are set to pick up considerably in 2024. We are sure to experience some setbacks and disappointments along the way, but we shouldn't lose heart. This is a just and noble cause, and each one of you is contributing to something historic, something that to our knowledge no group has ever attempted before. For that alone, you should be proud, but with God, we have a real chance of victory.

E. Scott Lloyd,

# FAUCI'S FIASCO

## On January 9, 2024

THE HOUSE SUBCOMMITTEE ON OVERSIGHT AND ACCOUNTABILITY SUMMONED DR. ANTHONY FAUCI TO A HEARING.

THANKS TO OUR LEGISLATIVE VOLUNTEER PAUL MEGNA FOR PROVIDING THE TALKING POINTS BELOW:

### Summary Origins of COVID-19 and Lab-Leak Hypothesis:

- Dr. Fauci acknowledged that a laboratory origin of COVID-19 was not a conspiracy theory, reversing his stance on the infamous "Proximal Origin" paper.

- Chairman Wenstrup highlighted evidence suggesting Dr. Fauci's connections with individuals suppressing the lab-leak hypothesis, emphasizing contradictory statements and conversations.

### Social Distancing and Gain-of-Function Research:

- Dr. Fauci claimed the "6 feet apart" social distancing recommendation was likely not based on scientific data, raising questions about the guidance's origins.

- Semantics were played with the definition of "gain-of-function" research to avoid accountability for previous statements, including disputing the NIH website's definition.

### Vaccine Mandates and Hesitancy:

- Dr. Fauci admitted that America's vaccine mandates, endorsed by the Biden Administration, could potentially increase vaccine hesitancy in the future.

### Oversight and Accountability in Grants:

- Dr. Fauci testified that he signed off on every foreign and domestic NIAID grant without reviewing proposals, revealing potential shortcomings in oversight.
- He was unable to confirm if NIAID has any mechanisms to conduct oversight of the foreign laboratories they fund.

### Memory Lapses and Recollection Issues:

- Dr. Fauci's testimony included more than 100 instances where he claimed not to recall COVID-19 information or conversations relevant to the Select Subcommittee's investigations.

# DECLARATION OF MILITARY ACCOUNTABILITY

FEDS FOR FREEDOM

On our [January 25th Town Hall](#), we were able to chat with Commander Robert Green, Jr. regarding the [document he authored and signed](#) along with other military leaders.

We wholeheartedly support this document and its 231 signatories. Our goals are completely aligned as we are pursuing similar accountability within the Federal Government.

**“So accountability, we realized, was not to be had, you know, from someone else in our government, from one of the three branches.”**

- Robert Green, Jr.

## An Open Letter to the American People from Signatories of this Declaration of Military Accountability

*“Our Constitution was made only for a moral and religious people. It is wholly inadequate to the government of any other.”*  
—John Adams

In the course of human events it sometimes becomes necessary to admonish the lawless, encourage the fainthearted, and strengthen the weak. We have reached just such a time in our history. The affairs of our nation are now steeped in avaricious corruption and our once stalwart institutions, including the Dept of Defense, are failing to fulfill the moral obligations upon which they were founded. **Standing upon our natural and constitutional rights**, we hereby apprise the American people that we have exhausted all internal efforts to rectify recent criminal activity within the Armed Forces.

In the Declaration of Independence our founding fathers sought separation. We seek no separation, but through this letter and the efforts we pledge herein, **we pursue restoration through accountability**. We intend to rebuild trust and restore the rule of law, particularly within the Armed Forces. Ultimately, we strive to once again become a moral people, restoring our nation, and making it again worthy of the great gift of liberty won by the colonial-era American people.

While implementing the COVID-19 vaccine mandate, **military leaders broke the law**, trampled constitutional rights, denied informed consent, permitted unwilling medical experimentation, and **suppressed the free exercise of religion**. Service members and families were significantly harmed by these actions. Their suffering continues to be felt financially, emotionally, and physically. Some service members became part of our ever-growing veteran homeless population, some developed **debilitating vaccine injuries**, and some even lost their lives. In an apparent attempt to avoid accountability, military leaders are continuing to ignore our communications regarding these injuries and the laws that were broken.

For GEN Milley, ADM Grady, GEN McConville, ADM Gilday, ADM Lescher, Gen Brown, Gen Berger, Gen Smith, VADM Kilby, VADM Nowell, VADM Fuller, LTG Martin, Lt Gen Davis, MG Edmonson, GEN Williams, ADM Fagan, VADM Buck, Lt Gen Clark, MG Francis, LTG Dingle, Lt Gen Miller, RADM Gillingham, and numerous others;

These individuals enabled lawlessness and the **unwilling experimentation** on service members. The moral and physical injuries they helped inflict are significant. They betrayed the trust of service members and the American people. **Their actions caused irreparable harm** to the Armed Forces and the institutions for which we have fought and bled.

These leaders **refused to resign** or take any other action to hold themselves accountable, nor have they attempted to repair the harm their policies and actions have caused. Since there has yet to be any accountability, the undersigned give our word to do everything morally permissible and legally possible to hold our own leadership accountable. We intend to rebuild trust by demonstrating that **leaders cannot cast aside constitutional rights** or the law for political expediency.

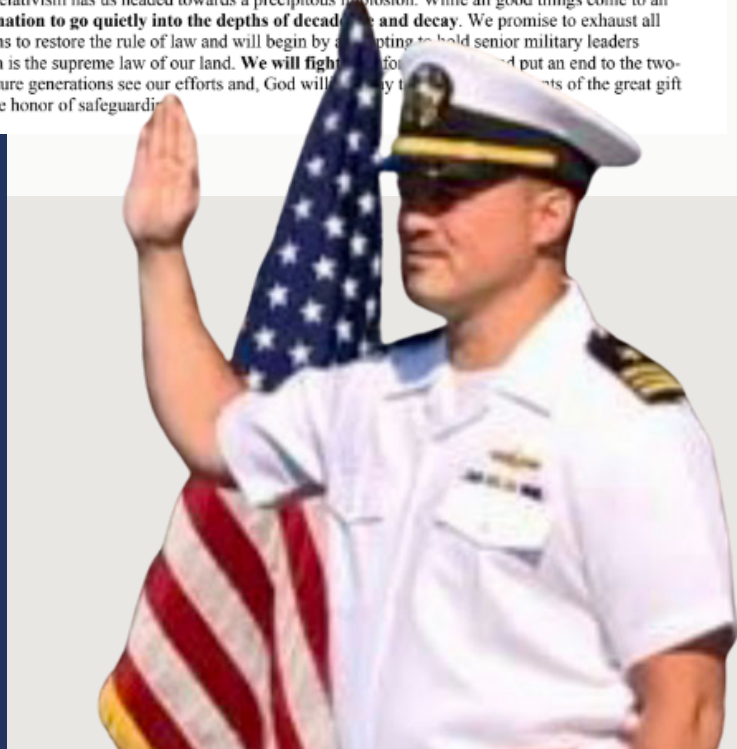

The flag and general officers are far from the only ones complicit in recent illegal activities, as a significant number of SES leaders and political appointees contributed. Evidence indicates that other executive agencies are engaging in illegal activity. However, as service members and veterans, we feel particularly responsible for the DoD and, in accordance with our oaths, we will make every effort to demonstrate by example, how **an institution can put its own house in order**.

We the undersigned, on behalf of hundreds of thousands of service members and the American people, while appealing to the Supreme Judge of the world for guidance and purity of intention, **mutually pledge** to each other that we will do everything in our power, through lawful word and action, **to hold accountable military leaders** who failed to follow the law when their leadership and moral courage was most desperately needed.

In the coming years, thousands within our network will run for Congress and seek appointments to executive branch offices, while those of us still serving on active duty will continue to put fulfilling our oaths ahead of striving for rank or position. For those who achieve the lawful authority to do so, **we pledge to recall from retirement the military leaders** who broke the law and will **convene courts-martial** for the crimes they committed. For those of us who attain legislative offices, we pledge to **introduce legislation to remove all retirement income** for the military leaders who were criminally complicit, and we will **ensure none serve in or retire from the Senior Executive Service**.

This endeavor will be a continuous process with a long-term time horizon, but fulfilling our oaths to defend the Constitution requires just such persistent vigilance. Likewise, we are obligated, and so commit, to train those who come after us to fulfill their duty in achieving this accountability and **safeguarding against such leadership failures hereafter**.

Our nation was once great because it was good. It was built on moral principles founded in natural law and yet, the recent acceleration of moral relativism has us headed towards a precipitous implosion. While all good things come to an end, **we refuse to allow our nation to go quietly into the depths of decadence and decay**. We promise to exhaust all moral, ethical, and legal means to restore the rule of law and will begin by **appointing to hold senior military leaders** accountable. The Constitution is the supreme law of our land. **We will fight** for our country and put an end to the two-tiered justice system. May future generations see our efforts and, God willing, enjoy the benefits of the great gift of liberty that we have had the honor of safeguarding.

## CFC CAMPAIGN RESULTS

# GIVE HAPPY

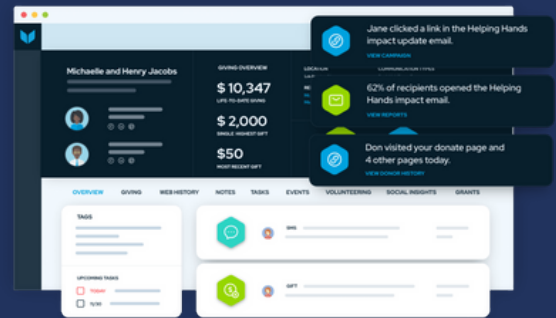

We are thrilled to announce that the 2023 CFC campaign was a great success. We had over **\$59,000** donated as well as 1,203 volunteer hours. Thank you to all who contributed.

## ADOPTION OF VIRTUOUS SOFTWARE

Our membership team and Board members have attended several weeks of meetings and trainings to prepare for our transition to Virtuous CRM Software.

This is going to be a big upgrade to our organization's system for data management and will help with our communications and fundraising.

Our donations platform has changed in the past few months as well. If you have not yet had a chance to shift your recurring donation from GiveLively to our Stripe Processor, you can do that by [logging in to your GiveLively account](#) using only your email address, canceling your current donation, and then [creating a new one on our website](#).
